

Y-0027-01  
ADVANCED PROJECT APPLICATION BOARD

Advanced Project Application Board is designed to do basic and advanced electronics applications. There are Power Supplies, function generator and portable breadboard on the set. The power supplies on the set can operate as symmetrical or TTL.

The set is placed with cover in a shock proof separable case. It is designed for using horizontally and is suitable for storing vertically.

**TECHNICAL SPECIFICATION**

Supply Voltage	:	220V AC / 50Hz $\pm$ 10%
DC Fixed Symmetric Power Supply	:	(-12V) - 0 - (+12V) DC / 0.5A
DC Fixed Power Supply	:	5V DC / 0.5A
	:	Electronic short circuit protected
Function Generator	:	Sine, Triangle, Square (TTL)
Amplitude Range	:	0 - 10Vpp
Frequency Range	:	1Hz - 100KHz

**SYSTEM PRESENTATION**

Main Unit	:	1 Pcs, (Dimensions 400mm x 45mm - 90mm x 265mm), Metal Case
Breadboard	:	1 Pcs, 2800 holes, removable
Power Cable	:	1 Pcs, IEC, 2m
