

Electric vehicle training equipment

YESA-4800

Feature & Specification

- Checking the power supply
- Checking the sensors
- Checking the actuators
- Determining the influence of the different sensors on the different actuators
- Recording and evaluating the control of the actuators with regard to the input information
- Representing the pressure conditions with regard to the sensor signals and the engine speed
- Representing, recording and evaluating errors which occur in practice
- Supplied Manual with theory

***Note. Image, specification and model No. of equipment can be changed by manufacturing process without special reporting.**
